In the event of a major disaster, professional emergency services may be overwhelmed and unavailable for long periods of time. The widespread needs of the town will depend upon voluntary assistance. With this in mind, the fire departments in Marin County have adopted a citizen-training program called Community Emergency Response Training (CERT). CERT is designed to provide hands-on training to become *self-sufficient* for at least 72 hours following a disaster such as an earthquake, flood, or a wildland fire. The program is presented in a two-day format, which includes two six-hour sessions, with a one-hour break for lunch.
